Let's get you started!

1) Add a person and act of kindness to each square! Just a name or act of kindness is fine to start. Cross off the square when you finish. Think of it as kindness bingo, and try to finish at least a line (row, column, or diagonal) by the end of November, or better yet, challenge yourself to complete every square!

2) No matter how far you get, let us know! Use the QR code to help us track our collective impact.

3) Get others involved! You can magnify your impact by inviting others to participate. Friends and family can use the QR code to download their own board and join in the fun!
